VOL. XXVI, NO. 113 GAINESVILLE, FLORIDA, FRIDAY, JUNE 18, 1909 TEN CENTS A WEEK

TO TAX NET EARNINGS OF ALL CORPORATIONS

President Taft Favors Such a Proposition as Substitute for the Income Tax Measure.

WASHINGTON, June 17.—Recommending legislation looking to the placing of a 2 per cent tax on the net income of corporations and also the adoption of an amendment to the constitution providing for the imposition of an income tax without an apportionment among the several States, President Taft today sent to Congress a message embodying his views on the subject. This action followed a protracted special meeting of the cabinet. In his message the President speaks of the apparent inability of Congress to agree to an inheritance tax, and as regards an income tax he refers to the decision of the supreme court in the case of Pollock versus The Farmers' Loan and Trust Company, in which the court held the tax to be unconstitutional unless apportioned according to population. "It is," says the President, "undoubtedly a power which the Government ought to have. It might be indispensable to the nation's life in a great crisis." The amendment, therefore, he decrales, was the only proper course. Such an amendment to the constitution, he continued, was preferable to the proposal of reviving a law judicially declared to be unconstitutional.

The amendment which he proposes should be made to the tariff bill provides for the imposition upon all corporations and joint stock companies for profit, except national banks (otherwise taxed), savings banks and buildings and loan associations, of an excise tax of 2 per cent of the net income of said incorporations. This, it is estimated by him, will bring an annual revenue of $25,000,000. "This is a tax on privilege and not on property," he said, "and is within the federal power without apportionment according to population."

The President points out that another merit to the tax on corporations is the federal supervision, which will give to the Government, the stockholders and the public knowledge of the real business transactions and the gains and profits of every corporation in the country. The adoption of the amendment, he says, will make a long step "toward that supervisory control of corporations which may prevent a further abuse of power."

"I recommend, then, first, the adoption of a joint resolution by two-thirds of both houses proposing to the States an amendment to the constitution granting to the Federal Government the right to levy and collect an income tax without apportionment among the States according to population; and second, the enactment, as part of the pending revenue measure, either as a substitute for, or in addition to, the inheritance tax, of an excise tax upon all corporations, measured by 2 per cent of their net income."

The message was referred to the finance committee.

DEATH OF MRS. WEEKS.

Prominent Woman of Starke Called to Her Last Reward.

STARKE, June 17.—The entire community is in sorrow over the death of Mrs. Weeks, wife of Col. W. T. Weeks, who passed away at noon yesterday, after several weeks' illness from Bright's disease. Mrs. Weeks was universally beloved for her kindness of heart and perpetual goodness to those about her. Her death was a great shock to her family, who was with her when the end came. She leaves, besides a husband, five children, Mrs. W. L. Wall, Mrs. Sam T. Dell, Gainesville; Mrs. Milton Brownlee, Robert A. and Miss Dea Weeks, and a large number of relatives to mourn her departure.

E. Cribb died at 2 p. m. yesterday from a gunshot wound, inflicted by a crazy negro at 7 o'clock Tuesday night. Mr. Cribb was a valued employe of the Powell Still Company, and accompanied the jailer, William Hollingsworth, to investigate the negro who was reported to be behaving too boisterously. When these two gentlemen approached the negro's cabin and spoke to him, they were answered by a discharge from a shotgun, tearing away the cheek bone of Mr. Cribb and causing an ugly flesh wound across Mr. Hollingsworth's breast. Local surgeons attended the wounded men, but Mr. Cribb died as above stated. Mr. Hollingsworth is resting reasonably well. Mr. Cribb leaves a wife and six children. Pursuers are chasing the murderer, who took refuge in the swamp.

ARRESTED FOR MURDER.

James Lowry Brought Here for Killing Arthur Jackson.

Deputy Sheriff Wynne arrived in the city Thursday evening with James Lowry in custody, he having cut and seriously injured Arthur Jackson, another negro, at Wilcox about three or four weeks since, and who has since died from the wounds.

Since cutting his man he has been hiding out, but Sheriff Ramsey had notified W. J. Lock, deputy at that place, to arrest him as soon as he returned, and Mr. Lock was not long in executing the order.

Sheriff Ramsey telephoned Deputy Wynne to proceed to Wilcox and bring the man here, where he was placed in jail to await the action of the next grand jury upon the charge of murder.

ANOTHER CHICAGO ON LAKE OKEECHOBEE

INTERESTED LAND OWNERS MAKE THIS PREDICTION.

If Dry Weather Continues Many People Will Buy Land in the Florida Everglades.

(Miami Metropolis, June 14.)

"Since January 10 the Florida Fruit Lands Company has conducted 86 visitors over its holdings in the Everglades. These men have represented 27 States and the District of Columbia, and all of them became purchasers," said Mr. Henry Russell Wray, speaking of the great possibilities of the Everglades territory.

"Somewhere on the south shore of Lake Okeechobee another Chicago is going to build," continued Mr. Wray, and he took a pointer and indicated the spot on the big map that hangs above the desk in his office.

"You are going to see it, and all of us will if we live long enough, and we will not have to live many years longer in order to see it, either.

"Somewhere out in here," continued Mr. Wray, with the pointer still busy, indicating a spot in the upper end of Dade county, "there will be headquarters for the trucking and fruit growing industries. A town is going to build in there and all the back country will be feeders for Miami.

"But watch the spot on the lake. Another Chicago is going to rise there. It is bound to come; the country is going to develop as the West has. The opportunity is great and those who get in on the ground floor are fortunate."

It may be regarded as very good business when, out of a total of 86 visitors, there were 86 of them buyers. It is to be remembered that this represents the number of sales made by one land company only, and the remark in question refers only to the number of visitors which this company has entertained. There are several other land companies that have been busy also, and this company has done much in the way of conducting sales aside from those made to visitors.

Another party of prospectors will arrive within the next few days. Mr. Wray expects Former Governor Broward to reach Miami with this party. He was expected last week, but wrote Mr. Wray a few days ago that he had been unavoidably detained at Jacksonville and would be here in a few days. It is inferred that Capt. Broward was waiting in Jacksonville for the party to reach that city before starting the trip to Miami.

FISHERMEN HAVE RETURNED.

Capt. O'Neill and Crowd Returned from Cruise of Gulf.

Capt. E. A. O'Neill and party, consisting of Maj. Walker, F. T. McCormick, B. F. Miller and J. A. Ettel, have returned from a two weeks' cruise down the Gulf coast, where they had a most delightful trip.

They went as far south as Clearwater, but did most of their fishing around Bayport, and state that at all times fishing was good. They had plenty to give away to the fishing smacks passing them at intervals.

The entire party are well tanned from exposure on the water, but outside of the rough appearance it has given them they are better for the trip and feel that it was not only a great pleasure with plenty of amusement, but equal to any course of medicine that could have been prescribed.

TWO LARGE BUILDINGS FOR STATE UNIVERSITY

Gainesville Will Be Scene of Many Improvements During Coming Year---Outlook Is Bright.

The mammoth buildings costing not less than $40,000 each are to be erected at the University grounds within the next few months. W. A. Edwards, the architect of plans for all these buildings, is now in the city to look after the preliminary arrangements.

One of the buildings to be erected is a science hall, which will cost about $40,000. The contract will be let within the next ten days, it having been discovered that there is sufficient money available for this structure.

Another building, the contract for which will also be let at the same time, is an experiment building which is required by the U. S. Government. This will also cost not less than $40,000, making two large buildings to be erected there at a cost of not less than $80,000.

Besides the large buildings to go up, they are now completing Thomas and Buckman halls at a cost of about $6,000 and will build a barn costing $2,000, and other small buildings to cost about $500—making a total expenditure of $87,500 on buildings immediately.

It was stated Thursday by a gentleman in a position to know that within the next eight months the board of control will start work on the erection of the administration building, to cost about $100,000.

In view of so much work going on at both the University and U. S. Government buildings, and the other contemplated improvements, Gainesville will have one of the most prosperous years in her entire history.

Dr. A. A. Murphree, the new president of the University, was busy all of Thursday looking over the city and endeavoring to secure a suitable house, that he may move his family here without further delay.

THE FIRST COPPER HEAD.

Coast Line Ran One Through Here Thursday for Melons.

The first copper head engine to run through Gainesville on the Florida Southern division of the A. C. L. was run yesterday for the purpose of pulling some of the melon business through this section.

The engine, which is one of the largest made, will pull the load of any two ordinary engines, and they will see if they cannot use them hereafter instead of so many sections of the same train, as has been the custom.

Early in the season they began the work of relaying heavier rail for this special business, but the rush came on them before it was completed, and this trip was an experiment. If the change in the road bed from here to Evinston is made, as contemplated, they will have no trouble in running these massive engines through here regularly.

The Misses Floyd Entertain.

Misses Mary and Belle Floyd entertained delightfully Thursday afternoon in honor of their charming guests, Misses Claire Denby and Eugenia Waterbury of Jacksonville.

Refreshments were served, and a feature of the evening was a guessing contest, three of the contestants tieing. Miss Elizabeth Taylor was finally the successful contestant, however, and was awarded a box of candy.

The occasion was highly enjoyed by the young people.

Very Destructive Fire At Pretty Dowling Park

LIVE OAK, June 17.—A destructive fire visited the beautiful little city of Dowling Park last evening, claiming for its fuel the large, commodious hotel situated just across the Suwannee river in horseshoe bend. In connection with the hotel, three cottages and the bathing pool were destroyed. The loss is estimated at from $12,000 to $15,000, which is only partly covered by insurance. The fire broke out in the upper floor in a spare room, and was not discovered until it was too late to save but little of the hotel furnishings. The hotel was under the management of C. B. Willard, formerly of this place, and a number of people were visiting the springs.

Pensacola Negro Will Contest Jim Crow Law

PENSACOLA, June 17.—Declaring his intention of appealing his case to the circuit court, D. A. Wills, colored, fined in the recorder's court $10 for violating the Jim Crow street car law, has given bond pending a motion for a new trial, which is to be argued at an early date. The Jim Crow street car law has already been tested by the negroes of the city and the supreme court has declared it valid, but Wills proposes to bring about a new situation by citing that the accommodations afforded by the Pensacola Electric Company are not sufficient for the colored patrons of the company. It will also be stated that the partitions which the law requires are not maintained, but that a sign alone separates the white and colored persons. Sunday the negro boarded a street car and instead of taking a seat in the colored section, seated himself among the whites. When ordered to move by the conductor he refused to do so, and told the conductor he knew as much about the laws as anyone and he did not propose to move. His arrest and sentence to pay a fine of $10 followed.

EARLY FIRE DESTROYS A BOARDING HOUSE

WAS IN NEW SECTION AND OUT OF WATER RANGE.

Eleven Hundred Feet of Hose Laid to Cope With Fire Which Had Building About Consumed.

Nearly the entire building and its contents at No. 700 South Garden street were destroyed by fire at an early hour Thursday morning, owing to the department being unable to secure sufficient pressure from the water works plant.

While the fire must have started somewhere near 3 o'clock, it was about 3:30 a. m. when the alarm was turned in, and it was repeated several times, which caused confusion and the firemen were unable to tell just which box was rung in, although the drivers knew by the first ring and were soon upon the scene.

Eleven hundred feet of hose was required to reach the building, which was located in the new residence section not yet provided with fire plugs, and with all of this the boys did fine work in saving the front part of the building.

It was occupied by Mr. and Mrs. W. C. Newbern and run as a boarding-house, but had been closed for the past three weeks, and from the fact that there had been no fire in the part of the building where it is supposed to have caught for all of this time, it is supposed to have been of incendiary origin.

The building was owned by J. B. Davis, who had it fully insured, while all of the furniture and personal belongings of the occupants were almost a total loss, they carrying only a small amount of insurance.

As soon as the insurance matters can be adjusted Mr. Davis will have the building replaced.

Handkerchief Shower.

On Wednesday afternoon, June 16th, Miss Ida Burkhim entertained very informally for Miss Myrtle Fennell, whose wedding with Dr. Geo. S. Waldo is to take place on June 23rd. The novel feature of this entertainment was a handkerchief shower. At the hour of five Miss Alma Fennell, sister of the bride-to-be, pulled the ribbons which were gracefully tied to the chandelier in the dining-room, and which caused handkerchiefs by the dozens to fall upon the bride's head. Miss Fennell then opened each and every package, which contained a dainty handkerchief of some sort, and read the good wishes expressed on the cards therein. She was daintily attired in a white princess dress, and her pleasing manner all during this embarrassing task caused many complimentary remarks in her behalf. The many pretty handkerchiefs bestowed by her numerous friends shows the popularity of this young lady. During the afternoon delicious peach cream and "kisses" were served by little Miss Sophie Burkhim.

The guests then took their departure, after expressing to the hostess their thanks for such a lovely afternoon and wishing the bride just as many good things in life as she had pretty handkerchiefs.

BOYSER GEORGE HAS NOW BEEN CAPTURED

SHERIFF RAMSEY AND DEPUTY BRUTON MAKE THE CATCH.

Were Laying in Wait for Him When He Appeared at His Home. Now in Jail.

Boyser George, the negro who is charged with having shot Ed Sollar, another negro, on Tuesday evening, was arrested by Sheriff Ramsey and Deputy Bruton late Wednesday night, they arriving here about daylight Thursday morning with their prisoner.

The sheriff and his deputy visited the scene and were in waiting near the home of the defendant when he appeared, and they easily landed him.

Since his arrest his father has visited Gainesville and is claiming that his son is entirely innocent. He says Sollar was shot by some white man, who was stationed in a buggy near them at the time.

As soon as Sollar has sufficiently recovered, the preliminary hearing will be held in this city either before Justice Carlisle or Judge Mason, but it will be several days before he will be able to attend court.

Sheriff Ramsey stated to the reporter that the negro's father was trying to place the responsibility for the shooting upon one of his deputies, who was nowhere in the neighborhood at the time of the shooting.

CORDELE WILL PLAY THREE GAMES HERE

SERIES WILL COMMENCE AT BALL PARK MONDAY AFTERNOON.

Same Bunch of Slab Beaters That Handed Such a Lovely Package to Gainesville Years Ago.

Cordele, Ga., or the same bunch of slab artists that handed such a lovely package to Gainesville about four years since, and which caused a great many admirers of the local team to return home "busted," are to play a series of games here commencing next Monday.

Manager Davis has completed all arrangements for the coming of this bunch of ball players, and the record that they have established so far this season shows that they are playing some ball.

Manager Davis has all of his men here with but two exceptions, but he states that this will not interfere with him giving the visitors a show for the money, for he has a team that would be a credit to any city in the country among the amateur class.

Great expense and pains have been exercised in the selection of the ball players to constitute the famous "Oak Hall" aggregation, and he is of the opinion that the citizens will be pleased with the team that he has selected.

Let everyone talk baseball and have as many "rooters" present on this occasion as we can possibly get out, and assist the home boys in making good with all three of the series that have been put up to them for next week.

Considerable improvement has been made at the park, also on the road leading to and from the place, which will make it much more agreeable to travel there, for you will not be burdened with the dusty feature.

The Cordele players will arrive here not later than Sunday, to give them a good rest before meeting the home boys on Monday afternoon.

It is to be hoped that every lover of the national game will turn out Monday afternoon and encourage the local boys. The team this year is fifty per cent stronger than last, and the spectators will witness as good an article of ball as will be found anywhere in the State (including Jacksonville with its present team.)

"Show 'Em the Way to Play Ball" will be the slogan again this year, and ribbons bearing these words are on sale at Miller & Vidal's. Only a limited number will be offered and the first come, first served, so decorate Monday and attend the game.

HAVE ABANDONED THE JULY CELEBRATION

COMMITTEE MAKES REPORT AS TO WANTS OF BUSINESS MEN.

Strongly Urge Holding of County Fair in Early Fall and Have Signified Intention of Support for Cause.

The committee appointed by the business men and the citizens at the Dutton Bank last week have made a thorough canvass of the business houses and also a number of the citizens, and have abandoned the idea of attempting to place on an attraction here for July 4th.

They find that they have commenced too late to give it the proper advertising or secure the necessary excursion rates, and feel that the expense would fall too heavily upon certain ones of the city.

After a thorough investigation of the matter, they have submitted a report, which is herewith reproduced, recommending that they commence now to get up a creditable county fair to be held here in the early fall.

Following is the report:

"To the Citizens' Meeting:

"Your committee to arrange for the Fourth of July celebration, after a careful consideration of the situation, find that it is impracticable to get up a creditable entertainment at this time. We find the business and professional interests generally in favor of giving an entertainment to the people of the county, but the time between now and the Fourth of July is not sufficient to enable us to get satisfactory railroad rates and accommodations, or to properly advertise the event which we would consider most appropriate for the occasion, and that counter attractions have already been arranged for at different points in the county on that date.

"After a careful canvass of the people and a thorough consideration of the subject, we find that an entertainment in the early fall in the nature of a county fair would be very desirable, and we believe such a proposition would receive the encouragement and support, not only of the business and social interests of the city, but of the county at large, and would be of great interest and benefit to the county generally.

"With this recommendation we desire to thank all who have so kindly shown a disposition to contribute so liberally of their time and money for this purpose, and trust everyone will give the county fair proposition due consideration, and co-operate in the movement.

"All who have paid their subscriptions will please call on Mr. Ferdinand Bayer, treasurer of this committee, and the amounts paid will be cheerfully refunded.

WALDO TRIMS CORDELE.

Six Gainesville Men Played With Waldo Crowd.

Foxy Waldo people were wise in securing the services of six of the Oak Hall bunch to go up against the Cordele, Ga., team at that place Thursday, for it was soon seen that they were needed, and then only a score of 2 to 1 was made in favor of Waldo.

The men that left here and played with Waldo state that the Cordele bunch is a warm proposition when it comes to playing ball, and that they will be there with the goods when they meet the home boys here Monday.

This game was played with Waldo to fill in until next week, when they are to come here. They are playing both Starke and Waldo.

They are all good players, and from the game at Waldo it would seem that they are pretty evenly matched.

The battery for Waldo was Cricket Prewitt and B. Harvey.

If you have a little Hyomei inhaler (pronounced High-o-me) in your home you have a treasure.

Into this hard rubber inhaler you can pour a few drops of Hyomei and, presto, you have the best little physician for catarrh, coughs, colds, bronchitis, croup and asthma, the world has ever known.

If you have not an inhaler, ask for a complete outfit, which costs but $1.00, and includes an inhaler, a bottle of Hyomei, and simple instructions for use.

Hyomei is sold and guaranteed by J. W. McCollum & Co. to cure catarrh, asthma or bronchitis, or money back. It will relieve a cold in five minutes, and will break it up in five hours. It gives most gratifying relief to consumption sufferers, and is sold by leading druggists everywhere.

It is predicted that Governor Gilchrist will go down in history as the "Veto Governor." He could have exercised his veto upon at least three other bills enacted by the last Legislature and not offended this editor.

Count Zeppelin and other balloonists seem to have no difficulty in going up. It is the coming down that bothers. If aeronauts could only be certain of alighting safely in some field instead of taking a cold bath in the ocean, or crashing into the branches of a tree, aerial navigation might be less exciting but it would be dedidedly safer.

Many are the plans suggested to bring about universal peace and if but few of them are practicable they certainly do not lack in novelty. The proposition for an international army and navy to keep the peace and enforce arbitration decrees is of that character. Temporarily, as in the case of the allied expedition to China during the Boxer movement, such a plan occasionally answers. But as a permanent thing the plan is full of objectionable features that would make it impossible. The polyglot character of such an army, the unwillingness of any civilized nation to have alien troops doing police duty on its territory, and the selection of commanding officers—these are but a few of the difficulties that would arise. Just now it looks as if impending financial ruin due to inability to meet the rapidly increasing burden of taxation will be the most potent argument for disarmament and peace.

TWO GOOD LAWS.

The Pensacola Journal, at least, finds a few things to commend as a result of the last session of the Legislature. That excellent newspaper says:

"The newspapers of the State have been almost unanimous in villifying the late lamented Legislature and indulging in loud paeans of thanksgiving over its adjournment. Paragraphers have shot their usual shafts and given vent to their accustomed sarcasm. This, however, is largely a matter of habit and the State's representatives will, no doubt, size it all up at about its true worth.

"The Journal does not pretend to be without sin in this respect, but it has tried to confine its censure to specific acts of omission or commission, avoiding a wholesale condemnation. It is right and proper to give even the devil his due; and how much more deserving of the same courtesy are the hornless, hoofless, tailless patriots who recently adorned the red hills of Leon during sixty anxious perspiring days to pass laws pro bono publico or pro bono of some other old thing.

"The Legislature passed several commendable acts. The members who introduced these laws deserve praise, the two houses that passed them deserve praise and the good Governor who signed them deserves praise. The Journal says it and means it and hereby tenders all concerned its heartfelt thanks.

"And it wishes now to mention particularly two acts which, along with others already alluded to and duly approved, call for universal commendation. The first is the law requiring the separation of white and negro criminals and the separation of males and females in the prisons of the State. The second is the provision that the elementary principles of agriculture and civil government be taught in public schools, and penalizing the county boards of education which neglect to carry out the law.

"Both tnese acts are righteous and will tend for the moral, intellectual and financial betterment of the State. That the condition which necessitated the passage of the first should have previously existed in most horrible to think about, and it is gratifying to note the advanced appreciation of economics and need for political education which called forth the second. Every child at the age of twelve should know much of the soil whence springs his only hope for physical life, and should also be able to recite the Declaration of Independence.

"For these beneficient acts let us all join in eulogizing the recent Legislature—arousing, perchance, its members from the doldrums into which they may have fallen because of a superfluity of abuse, and bracing their spirits to a point where they may slap each other on the back with the mutually exhilarating consciousness of having taken part in 'a beautiful work well done.'"

Discussing the question of who bears the burdens of taxation, Editor Eugene Matthews of The Starke Telegraph says: "We are told that State Senator Flournoy of DeFuniak Springs, after giving the subject of taxation considerable study, has arrived at the conclusion that the poorer class of citizens and the corporations are bearing more than their share of the burden of taxation, while the middle class escapes much of the burden that they ought to bear. The plain, unvarnished truth of the matter is that pretty much all of us dodge every cent of taxation that we can. The very poor man having little to cover up and the capitalization of the corporation being a matter of public record, they may come in for more than their share of the burden, as Senator Flournoy concludes, but the fact remains that we are a generation of tax dodgers and few of us, indeed, are without sin. If the real and personal property in this State were returned for taxation at 65 per cent of actual value, the footing would not reach less than three hundred million dollars."

The well-known facility with which politicians can twist, turn and cloud the meaning of a promise or phrase which is clear to the average man is abundantly seen in the present session of Congress.

If its worth more to someone else than to you—no matter what it is—a want ad. will be a good investment.

LEARNING BY EXPERIENCE.

The glamour of the footlights leads many people who think they have histrionic talent to yearn for stage life. In a few instances the ambition is justified, but in the great majority it it not. People whose heads get turned with a little success and a good deal of applause in amateur theatricals soon learn that the requirements and exactions of professional life are vastly different from what they expected, and fortunate are they who are disillusioned without the loss of money or character.

That sometimes it is not the case is evident from the recent experience of a lady of means who believed she had the qualities necessary to make a good actress and who was imposed upon by a fake theatrical manager. He represented that he would form a company in which she would be the leading lady. She gave liberally to further the project, and now she is thousands of dollars out of pocket, the manager has decamped, and her ardor for the stage is quenched. The experience was dear but probably effective, and it may serve as a warning to others who may have theatrical aspirations, some money and but few qualifications.

It is said that representative government is not so popular as it once was. We do not know if that is or is not the case, but some legislatures have apparently done their best, or worst, to make it so.

Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The municipal election passed off quietly in Jacksonville, a very light vote being polled The Socialist ticket was a mere formality to keep the organization intact, and the Democratic ticket had a walk over. Hon. W. S. Jordan is the new mayor.

The Culpepper meetings which have been going on for the past three weeks at Bradentown have created great interest in all the towns on the river. Many have professed faith and have joined the church, and much good is bound to result.—Manatee Record.

About the last official act of former Mayor Sebring of Jacksonville was to veto an ordinance requiring all owners of vehicles from which any article of produce was sold to pay a peddler's license. Under this ordinance it would have been unlawful for a man to sell wood from his wagon.

Watermelons continue to go forward in battalions. Never before has this county shipped more product to market. One snipper says that he spent four years pelting the Yankees with minnie balls, and the past forty years he has been feeding them on watermelons and cucumbers and thinks that the havoc has been greater from the latter. "Peace has her victories no less renowned than war."—Ocala Banner.

The extremely dry weather is causing the few remaining rattlers to crawl about in search of water. Mr. C. P. Wandell, who resides in the south side of town, had his fine pointer struck three times in the head by a five-footer while protecting her progeny. The timely application of kerosene to the wounds and iodine internally saved the animal's life and she is as spry as ever, and Mr. W. is happy.—Bradentown Herald.

Should suffer in the face of evidence like this:

Mrs. John Smith, 307 E. Magnolia street, Gainesville, Fla., says: "I suffered from a weak back and severe pains in my sides for a long time. I could not stoop without experiencing sharp twinges through my body and if I did so it was difficult to regain an erect position. I was also subject to headaches and at times was very nervous. When I saw Doan's Kidney Pills so highly recommended for these troubles, I procured a box and began their use. In a short time I felt much better. The pains lost their severeness and I gained in strength. I consider Doan's Kidney Pills an excellent remedy and am pleased to recommend them."

TELEPHONE TALKS

The Long Distance System

One of the most valuable features of our service, to our subscribers and to the public generally, is our connection with the extensive long distance lines of the American Telephone and Telegraph Company and the other associated Bell Telephone companies.

We own thousands of miles of long distance lines in the seven States in which we operate and in addition can connect any telephone in our system with lines extending to any other city in which a Bell Telephone system is operated.

These long distance lines are of the most modern and improved construction and are maintained at a high state of efficiency. The Bell systems, operating in various sections of the country, are uniform in their equipment and in their methods of operating.

Only by reason of this close traffic arrangement between the Bell Telephone companies is it possible to go to a Bell Telephone almost anywhere, ask for "Long Distance" and be put in communication with almost any point in the country.

This vast network of wires, radiating throughout the nation, is used daily in commerce and for social purposes by the banker, the farmer and citizens in all walks of life and our plant here is an important link in this great chain.
